Education

2023 - 2027
Information Technology
Dong A University
GPA : 2.9/4.0

Technical Skills

- **Android Development:** Android Studio (Intermediate), Jetpack Compose (Intermediate), Kotlin (Basic–Intermediate)
- **API Integration:** REST API with Retrofit (Intermediate)
- **Version Control**: Git, GitHub (Intermediate)
- **Database**: SQLite, Room (Basic–Intermediate)

Soft Skills

- Strong self-learning ability and adaptability to new technologies
- Logical thinking with strong problem-solving skills
- Effective teamwork and communication in collaborative environments
- Proactive mindset with a strong sense of responsibility
- Good time management and ability to handle multiple tasks
- Willingness to learn and continuously improve

ĐANG THO NGOC

Android Developer Intern

Professional Summary

Information Technology student aspiring to become an Android Developer, with a solid foundation in Kotlin and mobile application development. Experienced in building personal projects using Jetpack Compose and integrating REST APIs. Possesses strong logical thinking, self-learning ability, and a proactive mindset in exploring new technologies. Eager to work in a professional environment to enhance technical skills, contribute to product development, and deliver better user experiences.

Career Objective

Aspiring Android Developer with a solid foundation in Kotlin and modern Android technologies. Passionate about building high-quality mobile applications and improving user experience, while continuously developing technical expertise in a professional environment.

Relevant Experience

Flutter Developer

Personal Projects |Dec 2025 – Present

- Developed mobile applications using Flutter and Dart
- Built a real-time remote control system using WebSocket and Node.js, achieving response time of under 1 second
- Designed and implemented modern, responsive UI using Flutter
- Integrated RESTful APIs and handled asynchronous data processing
- Applied clean architecture patterns such as MVVM principles
- Improved application performance and user experience

Projects

YouTube Remote Control App

Technologies: Flutter, Node.js, WebSocket, Chrome Extension

- Developed a real-time mobile application to control YouTube playback remotely
- Implemented WebSocket communication for low-latency interaction (<1s)
- Built and integrated a Chrome Extension for browser control
- Developed features including ad skipping, play/pause, volume control, and video navigation
- Deployed backend services on Fly.io

Github : https://github.com/Ngocdt3102/youtune_remote_control

Languages

- English: Able to read technical documentation, search for information, and learn new technologies

Strengths

- Strong self-learning ability and adaptability to new technologies
- Proactive in building personal projects
- Continuously learn from technical documentation and developer communities

English Puzzle Game

Technologies: Flutter, Dart, JSON

- Developed an educational puzzle game for English learning
- Designed and implemented game logic and UI using Flutter
- Managed structured data using JSON
- Focused on improving user engagement and learning experience

Github : https://github.com/Ngocdt3102/english_puzzle_game1

Activities & Achievements

Personal Development & Projects

- Actively built multiple personal projects using Flutter, Node.js, and modern technologies
- Continuously explored new technologies such as WebSocket, REST APIs, and mobile development frameworks
- Applied theoretical knowledge into real-world applications through hands-on projects

Self-Learning & Community Engagement

- Regularly studied technical documentation and improved skills through online resources
- Engaged with developer communities to learn best practices and modern development trends

DANG THO NGOC

ANDROID DEVELOPER INTERN

Công ty TNHH MTV
Logix Technology

Dear Hiring Manager ,

I am writing to express my interest in the Intern Android Developer position at Logix Technology Co., Ltd. Through your recruitment information, I learned that your company is currently seeking candidates for this role. I am eager to challenge myself in a dynamic and professional working environment, and I believe my current knowledge and skills make me a suitable candidate for this position.

As stated in my attached CV, I am an Information Technology student with a solid foundation in Kotlin and Android application development. I have completed personal projects such as a To-Do application and a Weather application, utilizing Jetpack Compose, REST APIs, and the MVVM architecture. Through these projects, I have developed skills in UI design, data handling, and logical problem-solving.

In addition, I possess strong self-learning abilities, actively explore technical documentation, and am always willing to learn new technologies. I believe these qualities will help me quickly adapt and contribute effectively to your team.

Thank you for taking the time to review my application. I would greatly appreciate the opportunity to attend an interview to further discuss my qualifications and learn more about the Intern Android Developer position at your company.

Sincerely,

Ngoc
