Technical Skills

- **Frontend:**
  HTML, CSS, JavaScript, ReactJS
- **Backend:**
  Node.js (Express), Python (Django)
- **Database:**
  MongoDB, MySQL (Basic)
- **Tools & Others:**
  Git, GitHub, RESTful API, Postman

Soft Skills

- Strong self-learning ability
- Proactive and responsible
- Good teamwork and communication
- Problem-solving mindset
- Willingness to learn and adapt

Languages

- English: Able to read technical documentation and learn new technologies

Education

Dong A University — 2023 - 2027

Information Technology — GPA : 2.95/4.0

Career Objective

Short-term: Seeking a Web Developer Intern position where I can apply my knowledge of HTML, CSS, JavaScript, and ReactJS to build and optimize web applications, while gaining hands-on experience in real-world projects.

Long-term: To become a skilled Fullstack Web Developer, contributing to scalable and user-friendly systems, and continuously improving my expertise in modern web technologies.

Relevant Experience

Personal Web Development Projects | 2025 – Present

- Developed web applications using ReactJS, Node.js, and Django
- Built responsive user interfaces with HTML, CSS, and JavaScript
- Implemented RESTful APIs and handled basic backend logic
- Worked with MongoDB for data storage and management
- Fixed bugs and optimized application performance
- Collaborated with project structures similar to real-world workflows

Projects

E-commerce Website (Shop Project)

Technologies: Node.js, ReactJS, MongoDB

- Developed a fullstack e-commerce website with product listing, shopping cart, and order management
- Built RESTful APIs using Node.js (Express)
- Designed responsive UI using ReactJS
- Implemented user authentication and admin management features
- Integrated MongoDB for data storage

Github : https://github.com/ngocprofile/Shop_Project_NodeJs

Expense Management System

Technologies: Python (Django), HTML, CSS, JavaScript

- Developed a web application for managing personal expenses and income
- Implemented CRUD operations for tracking financial data
- Built backend logic using Django framework
- Designed user-friendly interface with HTML, CSS, JavaScript
- Improved usability with structured data presentation

Github : https://github.com/ngocprofile/expense_manage

Ngoc

Strengths

- Continuous learning mindset
- Adaptability to new technologies
- Good technical documentation habits

YouTube Remote Control App

Technologies: Flutter, Node.js, WebSocket, Chrome Extension

- Developed a real-time mobile application to control YouTube playback remotely
- Implemented WebSocket communication for low-latency interaction (<1s)
- Built and integrated a Chrome Extension for browser control
- Developed features including ad skipping, play/pause, volume control, and video navigation
- Deployed backend services on Fly.io

Github : https://github.com/Ngocdt3102/youtube_remote_control

Activities & Achievements

Personal Development & Projects

- Actively built multiple personal projects using Flutter, Node.js, and modern technologies
- Continuously explored new technologies such as WebSocket, REST APIs, and mobile development frameworks
- Applied theoretical knowledge into real-world applications through hands-on projects

Self-Learning & Community Engagement

- Regularly studied technical documentation and improved skills through online resources
- Engaged with developer communities to learn best practices and modern development trends
